

TRIPLE ACTION GASTRIC COOL™

GLUTEN FREE

STOMACH AND ESOPHAGUS SUPPORT FORMULA
Natural Cherry and Vanilla Flavor

PIONEER® Triple Action Gastric Cool™ is intended to provide nutritive support for stomach and esophagus comfort. Triple Action Gastric Cool™ is a triple action formula with alginic acid, buffering mineral carbonates and soothing marshmallow.

Because the lining of the esophagus is sensitive to stomach acid, burning sensations may occur when these juices splash into the esophagus. According to the National Digestive Diseases Information Clearinghouse (NDDIC), twenty percent of the U.S. population experiences uncomfortable feelings from stomach acid at least weekly. It is thought to be normal if this occurs only occasionally, but it is very uncomfortable for the person who is experiencing it!

Stress, smoking, excess body weight, caffeine, certain foods and genetic susceptibility are major components in the development of an uncomfortable physical response to stomach acid. While we can't control all the factors that can lead to these sensations, we can initiate some health-promoting interventions such as smoking cessation, weight loss, appropriate diet, stress reduction and the use of several key natural ingredients as described below.

CONSIDER THESE PIONEER® ADVANTAGES:

1. Alginate Raft. *Alginate* from brown seaweed is a unique ingredient in PIONEER® *Triple Action Gastric Cool™* that performs an important function. It helps support normal stomach digestion through its raft action by floating on stomach contents that might splash up into the esophagus.

2. Buffering Mineral Carbonates. PIONEER® *Triple Action Gastric Cool™* contains *calcium, magnesium* and *potassium carbonates*. These mineral carbonates buffer solutions, meaning they make acidic environments more alkaline. Excessive buffering of stomach acid with large amounts of mineral carbonates can lead to a decrease in the digestive ability of the gastrointestinal tract. PIONEER® *Triple Action Gastric Cool™* uses just enough buffering carbonates to support the effects of the alginate raft without excessively reducing the acidity of stomach juices.

3. Soothing Marshmallow. *Marshmallow* is a demulcent herb that contains mucilage polysaccharides that soothe mucous membranes from local irritation. Marshmallow has long been used in traditional herbalism for its gut health supportive properties.

4. Naturally Sweetened, Cherry-Vanilla Flavor. PIONEER® *Triple Action Gastric Cool™* contains natural cherry and vanilla flavors. It is naturally sweetened with rice syrup solids and fructose, and also contains organic stevia.

5. Verified Gluten-Free. As with all PIONEER® formulas, *Triple Action Gastric Cool™* is made with strictly gluten-free raw ingredients and every batch of finished product is laboratory tested to below the low detectable limit of 10 ppm gluten/gliadin proteins.

Serving Size 2 Chewable Tablets Bottles of 45 Chewable Tablets		AMOUNT PER SERVING	%DV
Calories		10	
Total Carbohydrate	4 g	1%†	
Dietary Fiber	1 g	4%†	
Sugars	2 g		
Calcium (carbonate)	80 mg	8%	
Magnesium (carbonate)	40 mg	10%	
Potassium (carbonate)	40 mg	1%	
Marshmallow (<i>Althaea officinalis</i>) Root Extract (4:1)	400 mg	*	
Alginic Acid	1000 mg	*	

† Percent Daily Value based on a 2,000 calorie diet *Daily Value (DV) not established.
Other ingredients: fructose, rice syrup solids, cellulose, natural cherry and vanilla (coconut) flavors, maltodextrin (carrier), silica, vegetable juice color, magnesium stearate, gum arabic (carrier), organic stevia. 06.11
