

# CHILDREN'S COLD FRONT™

GLUTEN FREE

ELDERBERRY • ARABINO GALACTIN • VITAMINS A,C,D-3, ZINC  
With Monolaurin from Coconut

*PIONEER® Children's Cold Front™ dietary supplement is naturopathic doctor-formulated and is intended to provide meaningful amounts of key ingredients Elderberry, Arabinogalactan & Thymus. They join forces with Monolaurin & Organic Ginger PLUS important antioxidants—vitamins A, C, D3 & zinc—to help provide nutritive support during the cold weather season.*

Seasonal changes challenge children's bodies to adapt to cooler weather. Thoughtfully formulated *Children's Cold Front™* may help provide nutritive support for children's innate defense systems, overall resistance and vitality.

## CONSIDER THESE PIONEER® ADVANTAGES:

**1. Elderberry Extract** contains several potent antioxidant compounds, including deep purple anthocyanin pigments, rutin, quercetin and tannins. This time-honored herb is most often used by traditional herbalists during the winter months, and has been clinically researched for its health-supportive benefits.

**2. Arabinogalactan** is a polysaccharide from the bark of the Larch tree. Arabinogalactan is a long, densely branched, high-molecular weight polysaccharide. Larch arabinogalactan is thought to have immune supportive effects by increasing release of several cellular messengers.

**3. Thymus** is a key organ in the development and maturation of the immune system. Bovine thymus extract is intended to provide nutritive support for normal immune function. Some research has suggested that thymus extract may be supportive in respiratory health. Other research has suggested that thymus extract may help support normal T-cell function.

**4. Monolaurin**, often recommended by holistic practitioners, is a monoester derivative of lauric acid (the healthy medium-chain fatty acid found abundantly in coconut oil and also in human breast milk, where it is thought to offer natural benefits to the infant). A small percentage of food-based lauric acid may convert to monolaurin in the body. Research suggests a biological role for monolaurin in helping to provide nutritive support for immune health.

## 5. Antioxidants: Vitamins A, C, D-3 & Zinc

Two chewable tablets of PIONEER® *Children's Cold Front™* provide a meaningful amount of immune supportive antioxidant nutrients. Each serving provides 1000 IU of vitamin A (from natural beta carotene and retinyl palmitate), 200 IU of vitamin D3 (cholecalciferol), 200 mg of vitamin C from pure ascorbic acid and calcium ascorbate and 3 mg of zinc (acetate).

**6. Organic Ginger** is a warming herb in traditional Chinese medicine. It is an important Ayurvedic herb that has been used for centuries to help provide nutritive support for respiratory health.

## 7. Delicious Natural Elderberry Flavor, Sugar-free!

PIONEER® *Children's Cold Front™* has a delicious natural elderberry flavor and is sweetened with xylitol and maltitol. Xylitol and maltitol are low-glycemic sweeteners that are noted for their tooth-friendly characteristics—ideal for use in a chewable tablet. *Children's Cold Front™* also contains organic stevia.

**8. Verified Gluten-Free** As with all PIONEER® formulas, *Children's Cold Front™* is made with strictly gluten-free raw ingredients and every batch of finished product is laboratory tested to below the low detectable limit of 10 ppm gluten/gliadin proteins.

Bottles of 60 Chewables		AMOUNT PER SERVING	%DV
Serving Size 2 Chewables			
Calories		25	
Total Carbohydrates	6 g		.2%†
Dietary Fiber	<1 g		.2%†
Sugar Alcohol	4.7 g		
Vitamin A (50% as natural beta carotene from <i>B. trispora</i> , 50% as palmitate from fish oil)	1000 IU		.20%
Vitamin C (3:1 ascorbic acid : calcium ascorbate)	200 mg		.333%
Vitamin D-3 (cholecalciferol)	200 IU		.50%
Zinc (acetate)	3 mg		.20%
Elderberry ( <i>Sambucus nigra</i> ) Fruit Extract (13% anthocyanins)	200 mg		*
Arabinogalactan (Larch tree) ( <i>Latix spp.</i> )	250 mg		*
Thymus (bovine) (freeze-dried)	150 mg		*
Monolaurin (coconut extract)	50 mg		*
Organic Ginger ( <i>Zingiber officinale</i> ) Root Extract	20 mg		*
